1. INTRODUCTION AND SCOPE

This Procedure sets out internal rules for TriOptima AB on the management of client complaints to ensure that these are handed fairly and effectively, in a prompt and transparent manner and in accordance with applicable regulatory requirements (including, but not limited to, Article 26 of the MiFID Delegated Regulation on organizational requirements).

Great importance is placed on client satisfaction and this Procedure provides an opportunity to investigate and improve services for all customers.

Compliance is responsible for maintaining a complaints management process for TriOptima which ensures the prompt and effective handling of complaints.

Communications with clients relating to complaints shall be clear and in plain language that is easy to understand. All complaints shall receive a reply without undue delay.

2. DEFINITION OF A COMPLAINT

A complaint is defined as:

Any oral or written expression of dissatisfaction, whether justified or not, from, or on behalf of, a person about the provision of, or failure to provide, a financial service or a redress determination which alleges that the complainant has suffered (or may suffer) financial loss or material inconvenience.

For a matter to be treated as a complaint, the dissatisfaction should relate to a specific aspect of the service being provided. This would not include:

- A desire from the customer to see additional or supplementary features (e.g. service developments that are outside the scope of the existing agreement for services).
- Circumstances that are entirely out of the control of TriOptima e.g. relating to the acts (or failures to act) of one or more customers using the service in question.
- Challenges on the basis of existing and agreed fee structures.
- Dissatisfaction with general policies or with the exercise of discretion where no unprofessional or other misconduct, mistake, lack of care, unreasonable delay, bias or lack of integrity is alleged.
- Claims where the complainant is clearly not acting in good faith.

3. COMPLAINTS MANAGEMENT

All complaints shall be treated fairly and as promptly as possible.

a. Initial handling

The person receiving the complaint may attempt to resolve the issue to the satisfaction of the client. If this is successful, then the details of the resolved complaint shall be sent to Osttra.Compliance@cmegroup.com for record keeping and reporting purposes. If however the dissatisfaction persists after initial efforts to resolve the matter, the complaint shall be passed to Compliance for further handling. The person receiving the complaint should also make clear that

clients may also direct their complaint, at any time, directly to the Compliance function at Osttra.Compliance@cmegroup.com.

b. Handling by Compliance

Acknowledgment of receipt

Compliance will promptly acknowledge the receipt of the complaint by way of a written confirmation to the customer, indicating that the complaint is being investigated independently, and that a response will be provided in due course including findings and any corrective action. Compliance will also notify the senior manager of the relevant business line detailing the circumstances of the complaint.

Investigation

The investigation of the complaint shall be led by Compliance. Any required information or explanation will be sought from relevant business or support functions, or directly from the customer if necessary. The investigation shall determine whether the complaint is upheld, and if so, what corrective actions may be appropriate in response to the issue. Compliance shall conclude the investigation as quickly as possible and will ensure the complainant is kept informed of the progress of the measures being taken for the complaint's resolution.

Response

The conclusions of the investigation shall be communicated promptly, and in clear language, to the customer. In the event that a complaint is partially or fully rejected, reasons shall be given with a reasonable level of detail. In the event that the complainant is dissatisfied with the outcome, Compliance will inform the client about their options, including potential referral to an alternative dispute resolution body where appropriate. A list of such bodies is available via the link below: <https://ec.europa.eu/consumers/odr/main/?event=main.adr.show2>.
