

What cookies does OSTTRA Group Ltd use in its applications and why?

We use cookies on our applications in three main ways:

+ Strictly Necessary Cookies

Strictly necessary cookies enable you to fully experience our services and are not subject to your prior consent. These cookies make the features and functionalities found on these services available to you. OSTTRA Group Ltd uses this type of first party cookie to handle user registration and login, and if they receive error messages from application pages.

+ Performance Cookies

These cookies allow us to count visits and traffic sources, so we can measure and improve the performance of our applications. They help us to know which pages are the most and least popular and see how visitors move around our applications. The information collected by these cookies is used to create aggregated, anonymous analytics reports. If you do not allow these cookies we will not know when you have visited our applications and will not be able to monitor performance.

+ Functional Cookies

We use functional cookies to enable you to move around our applications and use features such as accessing secure areas (e.g., content for registered users). These cookies also allow us to remember your user preferences and to generally tailor the applications to you (e.g., to remember your language or region or whether you have already completed a survey). The information gained through the use of functional cookies is anonymous and is not used for any other purpose.

Contact Us

If you have any questions or concerns related to this Cookies Policy, please contact us using the form found on our [Privacy Request Page](#).
